

KaVo FLEXspace

Experience new
flexibility and
added values.

KaVo. Dental Excellence.

KaVo FLEXspace.

Experience limitless individuality.

KaVo FLEXspace sets new standards. In terms of individuality, value and speed. You can now design your individual laboratory furnishings: with variable height adjustment, countless arrangements and surprising solutions in wood.

Or you may decide on colourful details. There are no limits to your individuality. And the KaVo modular concept makes your choice and decision particularly easy.

KaVo FLEXspace. So much individuality is impressive.

Individuality

Design your own individual laboratory furnishings from two worktop forms, six benchtop textures and ten different decorative colours. You can easily define the ergonomically perfect working position through the integrated height adjustment.

And thanks to the variable functional cell, you can change the air nozzle and handpiece passage to the left or right at any time according to requirements.

Value

Experience the unique value of the new generation KaVo FLEXspace.

Surprise yourself with the first class price/performance ratio, which is setting new standards in the market for KaVo function and quality. Investment in KaVo laboratory furnishings has never been as easy as it is today.

Speed

The purchase of your new KaVo laboratory furnishings will be a real joy. With the clever KaVo modular concept, everything is simply faster: you will be impressed with everything from individual choice through the available range to delivery and installation.

After all, time is money.

<<For me flexibility is most important.
But it must be affordable.>>

Surprise yourself with a new KaVo aspect, solutions in wood.

Solid beech, beech veneer, birch, hazelnut, carrara and anthracite laminate worktops await your decision. And the best thing: you will receive the worktop tailored to your exact dimensions and individually to your situation regarding installation.

Surprisingly flexible.

Realize your personal workstation.

New Media

With KaVo FLEXspace, you are best equipped for the future. Easy integration of electronic media, such as PC or CAD/CAM scanner through simple extension elements.

Height adjustment

Optimal ergonomics through unique height adjustment via five steps from 82 to 94.5 cm. 12.5 cm altogether, by means of rotating feet at the front and socket-head screws at the back, adjusted in a few steps.

Media Box

Perfect order through central, compact media box for all connections. Double country-specific socket, gas tap, opening for Bunsen burner tubing and handpiece passage.

Functional cells: right/left

Perfection at the workplace. Simply change the side of the air nozzle and hand piece passage yourself as required at any time now, or indeed in the future, without any additional parts. Choose between drawer and fixed panel for the other side.

Functional cell: middle

In the upper middle of the functional cell, you have the following choice:

- 50-module waste drawer
- suction panel for EXTRAmatic® plus or central suction system
- SMARTair filter drawer

In the lower middle of the function cell, choose between

- 50-module waste drawer

- 20/30-module waste drawer

<<True individuality proves its worth only after years.

But I would like to experience it today.>>

KaVo FLEXspace.

Give your bench real charakter.

<<The value of my work is also a question of the laboratory furnishings.
And for this I need maximum functionality.>>

Worktops

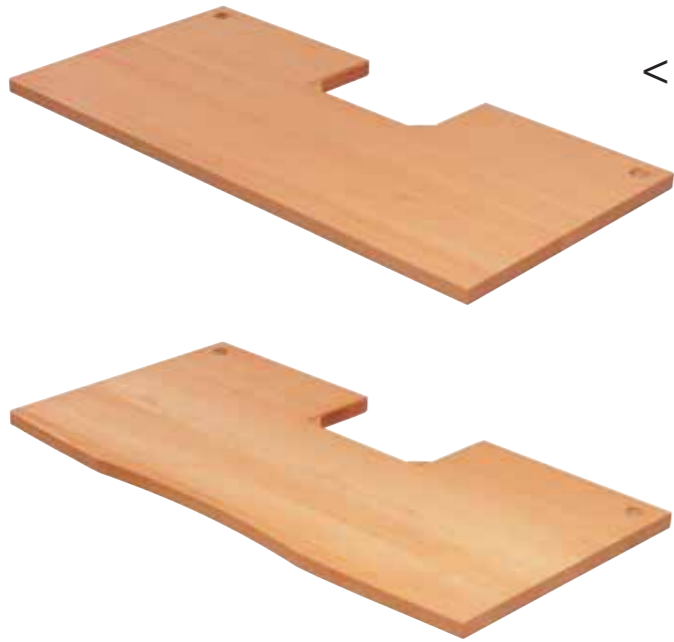

A blend of perfect functionality and design with KaVo FLEXspace entirely to meet your needs. Table top size: 62 x 124 cm. Extendable on request, e.g. with 90° top, bevel cut and for KaVo EXTRAmatic® plus.

Shapes:

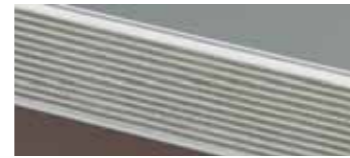

Classical straight or curved as ergonomic design variant.

Materials:

Six surfaces to choose from. All also available with high-strength TECHdent inlay, or other materials.

All-round edge:

Tech-multiplex optic, ABS 4 mm

Worktop inlay:

TECHdent inlay

Drawer Units

Functionality made easy! Choose between different types of suspended drawers. All versions are also available with a locking system. They can be mounted on the left or the right at any time now or in the future.

Side options

Side panels made of steel or additionally with internal decor for use on both sides, available in ten colours. Side shelf system for 90° end.

Work shelf base

Base for work shelf delivered as optional extra.

Light

1 x 55 W, 3,000 lux (measured at a distance of 50 cm from light to worktop). Various lighting is available. Light colour: 5,400 Kelvin. Can be adjusted individually and specifically to any desired position. The luminous intensity can be changed by altering the vertical distance from the working area. Handle for ergonomic adjustment of the lamp, permitting positioning of the light source over the entire worktop.

Wide range of versions.

Fits perfectly into any space.

Design your laboratory furnishings to suit the constraints of the available space. As a multiplace solution in many versions for optimal teamwork or as a single-place workstation with connecting elements.

3-place star shape

3-place circular shape

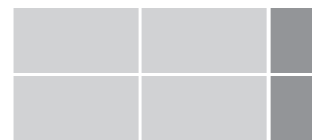

New versions

With KaVo FLEXspace, you will experience limitless individuality. Whether arranged in a star shape, as a compact 2-place workstation for the in-house lab or as a new media solution, KaVo FLEXspace meets your needs. Simply chosen and quickly realized.

3-place standard shape

Connecting elements

Thanks to versatile connecting elements and extendable worktops, all versions can also be adapted in a flexible manner to the walls of the room.

<<Excellent design reduces to the essentials.
But it must be flexible.>>

KaVo FLEXspace.

For dry, plaster and casting areas.

So much flexibility is impressive. KaVo FLEXspace provides you with functional furniture in 30, 50 and 60 cm modules. This creates noticeably more possibilities, e.g. in in-house labs and where space is limited.

Sink waste disposal with collecting container for plaster and waste
Combination basin with plaster trap

Choose from door cabinets, drawer cabinets and seat units. FORMdent, TECHdent, TERRAdent and STEELdent are available as worktop materials.

FORMdent (laminated)

TECHdent (glass-fibre concrete)

STEELdent (stainless steel)

TERRAdent (flagstones-surface)

Cabinet with or without base, door hinged on right

Drawer cabinet with 144 module drawers (H91) and 134 (H83)

Drawer cabinet with 1233 module drawers (H91) and 1223 (H83)

Cabinet with base, door hinged on left

Cabinet without base, door hinged on right

Drawer cabinet with 1233 module drawers (H91) and 1223 (H83)

Air nozzle module

<<The functional area should radiate quality.
And it must be tailored to my workstation.>>

Performance counts.

The high-value laboratory furnishings.

Those who decide on new laboratory furnishings today place value in particular on cost-efficiency and security of investment.

Times change quickly and require laboratory owners as well as employees to show maximum flexibility. And you are right to expect this of your new laboratory furnishings too, which must meet the requirements of changing premises as well as those of new employees who expect an ergonomically perfect workplace tailored to them.

It is no accident that KaVo FLEXspace combines all these values.

Because KaVo FLEXspace was developed in close cooperation with users throughout the world. And it has been realized with the entire experience and strength of KaVo - supplier of complete solutions.

Security of investment

Particularly today, the security of having made the right decision on investment is an important criterion when purchasing new laboratory furnishings. KaVo FLEXspace offers you precisely this security.

Quality, first-class price/performance ratio and the timelessly attractive design are one aspect.

And the other valuable side of KaVo FLEXspace proves itself when changes are made in the future: Maximum flexibility and individuality give you every conceivable latitude. Regardless of whether you wish to change your room layout, plan an extension or simply move.

<<My work is valuable.
And my furnishings are a part of it.>>

Systems supplier

KaVo is one of the world's largest dental systems suppliers. Our wide range of products gives you the certainty that ergonomics and function in terms of optimum laboratory services are at the core of our concept in furnishings too. And we prove this every day in large and small projects in all markets throughout the world.

Experience

KaVo has been developing, producing and marketing high-quality dental products for over 90 years. We have combined all this experience and developed KaVo FLEXspace for you. For optimum individuality and functionality.

Quickly chosen, even more quickly installed.

Added value for better performance.

<<I want to furnish my laboratory individually.
But it should be quick and easy.>>

Choice

All system components of the new KaVo FLEXspace generation are summarized in a separate overview. Planning and selection is therefore not only particularly easy but also incredibly quick to carry out. Have fun!

Installation

You will be really surprised when your KaVo FLEXspace laboratory furnishings are delivered and installed. Inconvenient, tedious installation work is out. KaVo FLEXspace is quickly chosen and even more quickly installed.

Product range

The new planning system will impress you. Because the total price of your chosen components and possible versions can be calculated more quickly than ever before.

Systems
