

VITA LINGOFORM®

Product Information

Date of issue 03.09

Available in the VITA SYSTEM 3D-MASTER
and VITAPAN classical A1-D4 shades

VITA LINGOFORM® Universally applicable – one for all

Productivity:

- Thanks to the multifunctional occlusal surface design, VITA LINGOFORM posteriors are quick and simple to set up - enabling high productivity and quality that satisfies the patient's needs.

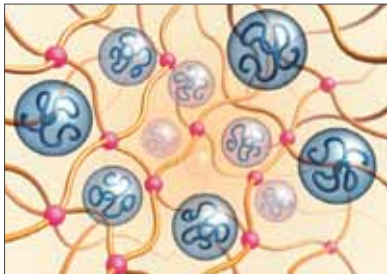

Function

- The functionally designed occlusal areas facilitate the ideal static alignment of the prosthesis in situ, help reduce horizontal shear forces to the prosthesis bed and offer a high degree of wearing comfort.

Setup concepts

- The VITA LINGOFORM functional tooth is suitable for all customary setup concepts including lingualized occlusion: **One for all.**

Material:

- VITA MRP (microfiller reinforced polyacrylic). A material which is homogeneous throughout, and with outstanding material properties combining high mechanical strength with excellent biocompatibility.

 PMMA pearls  cross-linked monomer  inorganic microparticle fillers

Esthetics:

- The multilayer buildup and the nature identical surface morphology ensure lifelike, harmonious light reflection behavior

Indications:

- Complete denture prosthetics
- Implant prosthetics
- Telescopic constructions
- Conus constructions
- Attachments
- Model casting prostheses
- Interim restorations

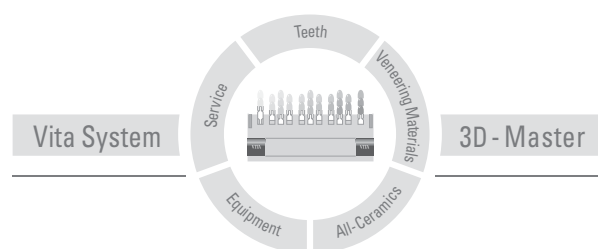

VITA LINGOFORM® 4 molds in all shades - ideal for combined restorations
